

Remarks

Applicant has carefully considered the Restriction Requirement mailed December 21, 2005. The Examiner has asserted that the inventions in the claims of Group I and claims of Group II are distinct. Applicant elects the claims of Group I (claims 23-31 and 40-47), without traverse. Claims 1-22 were previously cancelled. Applicant has now cancelled the non-elected claims of Group II (claims 17-22), and claims 30 and 47, and has added new claims 55-71 to more fully describe the claimed invention. Method claims 23-28 have been amended to clarify the grammar and language, and new claims 55-56 have been added as dependent claims on method claim 23. Claim 31 (to a computer-readable medium that includes instructions to implement the method of claim 23) has been amended to independent form, and new claims 57-63 (corresponding to claims dependent on method claim 23) have been added as dependent claims depending on the now-independent claim 31. System claims 40-45 have been amended to clarify the grammar and language, and claim 47 is cancelled. New means-plus-function claims 64-71 have been added, corresponding to method claims 23-29 and 55. Each of the new claims added is to the elected invention of Group I. Claims 23-29, 31, 40-46, and 55-71 (32 total claims and 4 independent claims) are pending. No new matter is added. Please charge any required fee to deposit account 502931.
